

Company Business Card

Make program that takes for input company info and print it in Console designed like business card. Your program must ask for:

- Company name
- Company address
- Company phone number
- Company web site
- Manager first name
- Manager last name
- Manager phone number

Use appropriate data types and use your imagination to print it in the Console. Feel free to use the Internet for research and solving your problems.

Here is screenshot from my version of the program.

```
Enter the requested information!
-----
